

PRODUCT NAME:

AQUAREDOX

ADVANCED MOF FOR CHEMICAL-FREE WATER DISINFECTION

AQUAREDOX

CERTIFICATE OF NON-OBJECTION

Key Features //

- ◆ Removes a wide spectrum of contaminants: organic, inorganic, heavy metals, microbial, PFAS & micropollutants
- ◆ High self-sustaining redox potential for chemical-free oxidation and disinfection
- ◆ Regenerable using Oxydes-P solution

AQUAREDOX is an advanced High-Redox filtration media engineered with dual-coated activated carbon technology, 70% copper-coated carbon (cathode) and 30% zinc-coated carbon (anode), to achieve instant oxidation and reduction for efficient removal of contaminants.

It creates a self-sustaining electrochemical reaction that generates hydroxyl and sulfate radicals, enabling the elimination of organic and inorganic pollutants, heavy metals, microbial contaminants, pharmaceuticals, and emerging pollutants.

AQUAREDOX is certified under: **NSF/ANSI/CAN 61** – Drinking Water System Components – Health Effects

The water treated by AQUAREDOX is safe for human consumption, plants, and aquatic life.
